This item is listed on the official agenda as Item No. 10G.

It was moved by Vice Mayor Campbell, seconded by Councilwoman Watson to amend the official agenda. This **motion carried by a 6-0 vote.** Councilman Braynon was out of the room.

6. SPECIAL PRESENTATIONS:

a. Proclamation – Hans Ottinot, Esquire Day.

Mayor Gibson and City Council members presented outgoing Interim City Attorney Ottinot with a proclamation for providing the City of Miami Gardens with excellent legal service during his tenure.

b. Major Marshall – Miami Gardens Police Department Status Report.

Major Marshall recounted that the Miami-Dade Police Department on December 1, 2003 started providing contract policing services for the City of Miami Gardens. As a methodology for providing feedback to the City Council and the community-at-large, the City Manager’s office and, the Metro-Dade County Police Department decided to provide monthly reports. This report is being provided to the City Manager’s office with a copy to the Mayor as well as an oral report.

Major Marshall announced that crime is down overall in the City of Miami Gardens. A comparison between December 2003 and January 2004 indicates that crime is down by 15% across the board. One of the things the COPS Program was very big on was truancy and curfew violations, this continues. In the month of December 57 truants (kids that are not going to school) were picked up. One hundred forty six kids were picked up during the month of January 2004. The Curfew provides that during the weekdays kids can be out until 11:00 p.m., and on the weekends until 12:00 midnight. For the month of December 2003, 14 curfew violators were picked up. For the month of January 2004, 19 curfew violators were picked up.

Major Marshall further related that due to some unfavorable activities the manager of the apartment complex located on 37th Avenue between 183rd and 187th Streets has contracted with the Guardian Angels as their new security service. The Miami-Dade Police Department has conveyed its commitment to working with this group.

Councilwoman King thanked Major Marshall and his department for doing an excellent job for the City of Miami Gardens. She inquired about the incident he referenced with the apartment

complex.

Major Marshall related that the incident involved a murder suicide. He further shared that the management of the complex saw the positive outgrowth the Guardian Angels Program had on New York City and thought this might be a good thing to have here.

c. Michael Wright – Possible Redevelopment Project.

Mr. Michael Wright of 1600 Pine Bluff Avenue, Orlando, Florida, appeared before the City Council to bring forth a proposal for the redevelopment of the abandoned Golden Glades Hospital property. He related that from discussions with people within the community there seems to be a need for some housing in this community that is not subsidized. He provided the Council with a housing proposal that would generate approximately 18 million dollars net taxable value, which equates to approximately \$50,000 in ad valorem taxes. He further related that there is one religious organization trying to raise enough money to purchase this piece of property. He shared that he's been working with the owners to get a contract in place to prevent the religious organization from purchasing the property. If the property was purchased by the religious organization it would be taken off the tax roll, therefore the City of Miami Gardens would not receive ad valorem taxes.

Mr. Wright shared that the property currently has a deed restriction, which prohibits the building being used as an apartment, an apartment building or an apartment hotel. He asked the City Council to consider exercising its Condemnation power to condemn the property for the purpose of redevelopment, and putting the property back into the stream of commerce. He shared that the owner is in agreement with having the property condemned. Once the condemnation process has concluded the title of the property would be turned over to the City, the City can then sell the property to an approved redeveloper.

Mr. Wright indicated that if the City started the condemnation process his company would take care of the legal fees involved with this undertaking. He reiterated that there would be no expense to the City.

Councilman Braynon asked for clarification about the City's power to initiate Condemnation and Eminent Domain proceedings.

Mr. Wright related that there are very specific requirements for granting cities Condemnation and Eminent Domain powers. The residential component is an essential element for the Condemnation Process. He further suggested that the City might want to consider forming a Community Redevelopment Corporation at a later date.

Councilman Bratton asked for clarification on the primary and secondary projects mentioned by Mr. Wright.

Mr. Wright indicated that the primary project is the residential condominiums. The secondary project would be a client controlled facility with retail on the first floor. He said however before money is invested he wanted to get some assurance from the City that either project is acceptable.

Councilwoman Pritchett asked Attorney Ottinot if he'd had an opportunity to review this item for legal sufficiency and what would be his recommendation.

Interim City Attorney Ottinot said this is the first time hearing about this project, with regard to Condemnation and Eminent Domain Powers. He related that he is currently involved with a Condemnation Claim, which is a very specialized area. Special Counsel would have to be utilized for this process. He related that the process is not cheap.

Mr. Wright indicated that the property owners have related that they would not actively oppose the Condemnation Proceeding.

Interim City Attorney Ottinot indicated that it is important to research all the issues involved to determine the financial impact this would have on the City. He said there are several issues that need to be researched in order for legal counsel to make recommendations.

Mr. Wright said that his company would indemnify and harm harmless the City for any costs and/or expenses and pay for whatever necessary security.

Interim City Attorney Ottinot recommend giving the City Manager direction for staff and Mr. Wright to work out some issues and clarify the financial entity.

Manager Crew indicated that it may not be necessary to condemn the property, only the deed restriction. That would be a much simpler process and would not involve the entire Condemnation process.

Interim City Attorney Ottinot said that he's not had an opportunity to review this deed restriction therefore it is hard for him to speak to this issue.

Councilwoman Watson commented that from Mr. Wright's presentation this property might have multiple owners. She asked how many other individuals or corporations were involved with this particular parcel.

Mr. Wright said the property as a whole is owned by the Morgan Reed Group. The Restrictive Covenant was put in place by the hospital. He related that he's talked with the hospital lawyers about clarifying the language and got a negative response from them. He said that there are two owners. He said the issue is what value this Restrictive Covenant has is in the marketplace or is it of personal value to Kenneth Health Care.

Interim City Attorney Ottinot opined that there are some issues that need to be researched. He said one of the ways to do this could be through the adoption of a Comprehensive Master Plan, where the designation could be changed. In that case the City would not be involved with a land purchase effort. He reiterated that there are legal issues to be researched with regard to this matter. He said that it would be appropriate for Mr. Wright to have his attorney research this issue and bring the information back to the Council.

Mr. Wright related that he would pay for the legal opinion. He said that he needed direction from the City Council indicating whether the City wanted to try and prevent the property from being taken off the tax rolls. He further related that he wanted some guidance as to whether the City wanted him to look into holding the City harmless in the event the City agrees to proceed with

Condemnation Proceedings, or a vote indicating that the City was not interested.

Mayor Gibson clarified that Mr. Wright is interested in this property and is willing to do all of those things mentioned (legal opinion and legal research). Mr. Wright would then bring this item back to the Council to hear his proposal, without any obligation from the City Council. She opined that Mr. Wright did not know whether the City of Miami Gardens was interested in having some upscale condominiums in its boundaries. She said that the City hasn't gotten to the point where it has established a policy. She said that she is in favor of upscale housing however she was not at the point of obligating this City, or the Council, to tell Mr. Wright to go a head and spend the funds. She said that she was not comfortable in saying how the policy was going to be. She reiterated the importance of having an upscale housing mix in the City of Miami Gardens.

Councilwoman Pritchett asked that whatever comes back before the Council be detailed information so that the Council has an opportunity to review it in order to make decisions that will be beneficial to all.

Mayor Gibson concurred with Councilwoman Pritchett's statement.

Mr. Wright said that he would have the information back to the Council in sufficient time.

At the conclusion of this discussion the City Manager was directed to meet with Mr. Wright to further expound on this project.

Mr. Anselm Smith of 721 NW 187th Drive, Miami Gardens, Florida appeared before the City Council in support of upscale housing in Miami Gardens. He asked that the property abutting NW 2nd Avenue also be considered for redevelopment.
